

COVID / FLU / RSV Combo Testing

As we all know, respiratory illnesses like the flu and RSV are common in the fall and winter months. Cases of flu and COVID-19 are also expected to rise this time of year. All these highly contagious upper respiratory infections can cause similar symptoms. These include fever, cough, shortness of breath, runny nose, headache, and more.

However, they respond best to different treatments that should be started promptly.

That's why it's crucial to consider testing for each of these contagious illnesses at the same time.

Primary Diagnostics laboratory offers 3-in-1 ([flu, COVID-19, and RSV](#)) PCR testing to help give you a precise diagnosis.

What are the benefits?

Can rule in or rule out flu, COVID-19, and/or RSV with a single nasal or oropharyngeal or buccal swab.

This test provides a faster path to the diagnosis and to start the appropriate treatment.

Our combo respiratory light panel has higher accuracy than rapid at-home tests, so testing usually does not need to be repeated due to false negatives.

Talk to your doctor right away if you're having symptoms to determine the right test for you.

* The Primary Diagnostics laboratory authorized PCR molecular [COVID/Flu/RSV test](#), (together “the tests”) have not been FDA cleared or approved.

* The tests have been authorized by FDA under an EUA for use by authorized laboratories.

* The COVID/Flu/RSV test has been authorized only for the simultaneous qualitative detection and differentiation of nucleic acids from SARS-CoV-2, influenza A, influenza B, and RSV, and not for any other viruses or pathogens.

* The tests are only authorized for the duration of the declaration that circumstances exist justifying the authorization of emergency use of in vitro diagnostics for detection and/or diagnosis of COVID-19 under Section 564(b)(1) of the Act, 21 U.S.C. § 360bbb-3(b)(1), unless the authorization is terminated or revoked sooner.

PrimaryDiagnostics Laboratory is a CLIA-certified laboratories that provides HIPAA-covered services.
